Ben Grumbles

After this book was made, Ben was named Secretary of Environment for the State of Maryland.

Deepika Shrestha

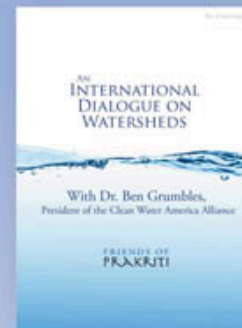

Deepika has returned to Nepal, where she monitors and evaluates development projects in areas like education and livelihood improvement.

Proceeds of this book support **Friends of Prakriti**, a charitable organization that supports environmental professionals in developing nations.

THE HISTORY OF THE LAND IS WRITTEN ON THE WATER

The coming century will see an increase in wars fought over clean water. Watersheds do not respect political and ethnic boundaries, making the critical task of protecting waters from pollution and depletion extremely difficult.

- In negotiations between unequal states, how do we ensure justice for the weak?
- How does the concept of watersheds revolutionize the thinking on water issues?
- What kind of agricultural policies will feed a population while ensuring its water

If we don't change the way that we view water issues, attempts at water management are doomed to fall short. ***An International Dialogue on Watersheds***, an innovative and interactive book, provides effective policy ideas and tried-and-true techniques from experts in the field.
